## Forsyth

FORSYTH, the county seat of Taney county, is a beautiful and centrally located at the junction of the sparkling waters of the Swan with the swift and crystal current of beautiful White river. The site is ideal, and the little, well built and well painted city, fastened at the meeting of the waters like a gem at the throat of beauty, while the wooded ridges flank in every direction the central figure, all form a picture which lingers long in the memory of the visitor—and he usually comes back to refresh the picture.

The Presbyterian church has decided to locate here its college for southwestern Missouri and northwestern Arkansas, making of Forsyth a prominent college town. The fact that Forsyth donated a forty-acre site and over three thousand dollars toward the establishment of this school sufficiently indicates the attitude of our people toward the higher education. The fact that the committee representing the church required an option on an additional 120 acres of land affords some clue to the plans of the church.

We have a good graded school, a neat stone chapel open to all churches, a well supported union Sunday school, daily mails from all directions—in short, more advantages than many a more populous and wealthy community.

A steamer is soon to be placed on White river for freight and passenger service, with headquarters at this place, to make daily trips to the new town of Branson, ten miles west on the White River railroad. A mail and hack line with headquarters here, gives daily connection with the "Frisco System" at Chadwick.

Most lines of business are represented, including general merchandise, drugs, millinery, hotels, livery, lumber, meat market, undertaking, printing, painting, milling, blacksmithing, carpentry, etcetera. We have an able and sufficiently numerous corps of lawyers, a good physician, and real estate men enough.

We need a resident dentist, a furniture store, a hardware store, a wood-working factory to utilize our native woods, and various other enterprises can find or make good openings.

C. E. PIERCE.

A young lady in search of information is said to have asked a newspaper editor to state the difference between printing and publishing. The editor proved himself equal to the emergency. Drawing the young lady towards his immaculate shirt front he deliberately printed a resounding kiss on her ruby, ruby lips, remarking as he did so: "Well, Emma, this is printing. If you go away and tell of it that is publishing." Of course it was good enough to publish, and the editor evidently thought so too, and he published it in his next issue—in an impersonal way—which accounts for the public knowing anything about it.

The most pleasant and positive cure for indigestion, heartburn and all stomach troubles is Ring's Dyspepsia Tablets. They aid digestion, tone and strengthen the stomach. Sold by J. A. Lamb, druggist, Taneyville.

W. K. Cottrell of Cedar Valley spent Sunday in the Aubrey home. He was enroute to Cape Fair, Stone county, where he has a school. Stone county evidently exercises discretion in selecting teachers from outside.

Mr. L. L. Eakin, of the Southwest Missouri Land Co., has arrived from Kansas and joined his family on their farm near Walnut Shade. The Republican can but regard the coming of such people among us as an acquisition.

R. T. Gardner deposited on the Republican table last Thursday a pear that was seemingly trying to masquerade as a squash. It measured 12 x 12 inches in circumference. Pears often reach amazing size in this locality.

Elsewhere in this issue will be found the announcement of J. E. Everly as an auctioneer. He is a man of good judgment, successful experience, ability and reliability whom it is a pleasure to recommend to the readers of this paper.

W. C. Cross of Bradleyville was in town Saturday, looking much more smiling than his name. He brought in some very promising samples of jack, of which he thinks he has a great quantity, the ledge from which they were taken outcropping for more than a quarter of a mile on his property.

As the result of a recent series of meetings a General Baptist church was organized Sunday night at Wilson's Springs in the Conner bend, with a membership of twenty-two. The organization will be known as Wilson's Springs Baptist church. Two more members are to unite with the church by baptism in a few days.

Surveyor M. E. Bird started out Tuesday morning to tackle some surveying which was awaiting him, but found it necessary to turn back before reaching his work. He had not been well for several days, and found himself threatened with an attack of fever and unable to proceed. It is hoped his indisposition will be but temporary.

This paper has not said, and will not say, that all who desire licensed dramshops are boozers, thugs and bums, for such a statement would be untrue; but it does say that all boozers, thugs and bums are for the licensed dramshop, a statement so true that it needs no argument; and it further says what is just as true, that some good and respectable citizens who are talking and will vote for whiskey are talking and will vote in pretty hard company.

Ten of our musicians have ordered instruments and secured the services of S. W. Norris, who is a competent instructor, and Forsyth will soon have a brass band to toot for her interests. The horns are expected any day, and Mr. Norris is expected to be on hand about the first of October. Now is the time to purchase your ear-shields.

## E. Speakman, - TANEYVILLE, Missouri

It has been contended that the Forsyth saloon was so conducted as to be a pretty decent thing as saloons go. It may be so. Let it be granted for argument's sake that it is far better than the average. Yet the writer has frequently seen the sidewalk in front of this model saloon so obstructed by noisy, reeling, swearing human beings who would be men if they were sober, that ladies could not pass. He has frequently seen ladies step out into the mud and slush of the principal business street to get past the place. He has seen men who had paid their money over the bar for drink until they were no longer able to stand permitted to lie on the ground all night, so far as the institution which had taken their money was concerned. He has seen a man fall asleep on the saloon sidewalk under the influence of the booze, while the dogs and the hogs were permitted to crowd round him and finish the lunch which he had been unable to dispatch before he was "overcome," without interference from the institution which was responsible for his condition. If such things be under the operation of a decent "saloon" what in heaven's name are we to expect under the operation of one of the ordinary or indecent sort? And if we vote for the saloon we have not even the poor assurance that the saloons to be licensed and operated will be of the "decent" variety. What will you do about it?

Sick headache results from a disordered condition of the stomach and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale by City drug store.

Dr. Storms of Kirbyville was an early worm in town this morning and a pleasant visitor to this office where he left a substantial reminder.

Joseph Brinton, of Billings, Montana, in company with H. T. Ramsey of Kisco Mills, were in town Monday. Mr. Brinton is looking over the county with a view to locating a sheep ranch, an industry for which this section possesses many recognized advantages.

Three different distilleries are seeking locations in Taney county, having had their present locations rendered untenable by the result of local option elections. If we should fail to vote out the booze the county will be overrun by such institutions driven out by other localities, and by the class of people which naturally follow them. Do we desire to invite the coming of the worst elements of all the surrounding counties? If so we need only to vote "wet" on the 9th of September.
